CHRYSANTHEMUMS

ELM TREE PERENNIAL FARM

528 NORTH MAIN ST. • SOUTHTON, CONN.

ELM TREE MUMS ARE SO EASY TO GROW!

When you receive them, our mums will be ready for a big burst of growth in any good, fairly well-drained garden soil.

We will ship at proper planting time when the danger of last frost has long passed.

Prepare the soil in a reasonably sunny spot as you would for any garden plant, using an all-purpose fertilizer suitable for flower or general vegetable culture. Mix your fertilizer well into the soil in the entire bed before digging the hole, and then as you remove the soil for the planting hole you will be helping to mix the fertilizer still more.

Put plants at same depth as originally grown in a large enough hole not to crowd the roots. Be sure not to bury the crown too deep or leave it sticking up too high. Set out at least 18" apart for bushy plants.

Pinch out top $\frac{1}{4}$ of plant to encourage branching.

We suggest that you use dilute solution of a water soluble plant food in initial watering and every three weeks thereafter until blooming time. You should water deeply at least once a week in dry periods. Keep beds well weeded or mulched.

P.S. Grow "spares" in rows in your vegetable garden or other out-of-the-way, but sunny, place. You can move these in full bloom in the fall to fill in gaps in the flower or shrub border, or use in boxes on your terrace.

We guarantee all plants to be in good growing condition and true to name. We cannot however be responsible for plants after their arrival at destination.

Chrysanthemums May Safely Be Planted From May 1 to July 20.

LOCATION OF NURSERY

Customers and visitors are always welcome at our Nursery. Located 1 mile North of Southington, on College Highway #10. Field plantings are within three miles of our main Nursery, and may be seen anytime in the Fall when plants are in bloom.

WE SPECIALIZE in Hardy Chrysanthemums, but also raise other Annual and Perennial flower plants which are sold at the Nursery in their proper season.

HOW TO ORDER

Dear Friends:

PLEASE ORDER EARLY. All orders acknowledged by card containing an order number. Always mention this order number when writing or calling for your plants, or when adding to your order.

ALL PRICES ARE FOR ROOTED CUTTINGS.

All order shipped **PARCEL POST PREPAID, SPECIAL HANDLING**, which gives you the speediest delivery possible. Efforts are made to prevent plants from arriving on week-ends, so there will be no Sunday layover at your Post Office.

SPECIAL DELIVERY. If you want quick delivery of your plants, we are equipped to give you this service at the following rates:

1 to 4 plants 45c; 5 to 24 plants 55c; over 25 plants 70c

Just add the amount to your remittance and we will prepay postage and send Special Delivery. An extra plant will be enclosed with each Special Delivery order.

Remittance with your order please. **NO C.O.D.'s** please, as they are quite complicated to handle.

Please add 50¢ to all orders to cover handling, packing, etc.

We grow more **CHRYSANTHEMUM** varieties, but ship only those listed in this catalog. Field grown clumps are sold only at our Nursery in the Fall, when in Bud and Bloom.

WE DO NOT LIKE TO SUBSTITUTE — But we would like you to tell us definitely if we may or may not, or please name some second choices, so we could use these, in case we are out of a few when we fill your order. If we substitute we would do so with a variety of equal or greater value, and similar type and color.

CUTTINGS ARE SHIPPED FROM APRIL 1st TO JULY 1st. Plants are well-labeled and packed, assuring you beautiful, sturdy blooming plants this fall. We will try to ship as close to specified shipping date as possible.

FREE PLANTS. In the past we have received pleasure from including additional plants of some of the better varieties as gratis plants. We hope to continue this custom. The number of gift plants will be determined by the size of the order. Whenever we order plants from a nursery, we are always thrilled to receive something we didn't expect. We hope our choices will please you. The Golden Rule will be applied here.

WHEN YOUR PLANTS ARRIVE, if they are a little dry, cover the roots with water for a few hours or until the next day. Best time to plant is late afternoon or evening. If your garden soil is well-prepared and the weather is cloudy or the soil is wet, you can plant immediately. Keep soil well watered for a few days.

Sincerely your,
MR. & MRS. GEORGE WILLARD
ELM TREE PERENNIAL FARM

Due to increased retail sales we are no longer able to handle large quantity wholesale orders.

SUBSTITUTIONS: If made, higher values in same colors are given. However please mark "No substitutions" or "Substitutions permitted".

SYMBOLS: L-Large, D-Decorative, P-Pompon, C-Cushion, S-Single, B-Button, CF-Carnation Flow.
*Recommended for Mother's Day pot plants. \$Items Listed With Us For Second Time.

RE: Our Prices: "3 for \$90" means 3 of that one variety.

NEW GARDEN LISTINGS FOR 1961

EACH 50¢ 3 for \$1.25 — 1 Variety Only

BRONZE GREMLIN — Perky little 1½" pompons of deep walnut bronze with a deep mahogany eye. A compact mound of color by Sept. 15th.

CAMPAIGNER — Beautiful large 3" cactus of bronze gold that deepens after frost to nearly orange. A tangy fall accent with an upright flaring growth of medium height flowering Sept. 22nd.

CORTIS RICE — Large 5" buttercup yellow. A good early cut flower garden mum. Blooms Sept. 10th.

GLEAM — Masses of vivid golden yellow pompons on neat sturdy sprays from Mid September to frost.

MOONLIGHT SPOON — A large early soft yellow spoon that grows in a bushy clump. The sprays shade to light primrose yellow and are well suited for use in unusual arrangements. Blooms by Sept. 20th.

(Continued on page 16)

ENGLISH VARIETIES

LARGE FLOWERING CHRYSANTHEMUMS
